

## Part 1 – Quick Start Guide

Scribe captures sampling, observational, and monitoring field data. It can import and export electronic data and can be configured for use with hand held computers. Scribe requires Windows 98 Second Edition or higher, 50 MB free disk space, a Pentium processor and 64 MB RAM. Scribe contains a demo project, which may be opened and used as a demo tool.

### Starting a New Project

*The first time Scribe is opened, the New Project Wizard starts, and helps create the first project.*

### New Project Wizard Screen

Click **Next** to display the “Project Information” screen.

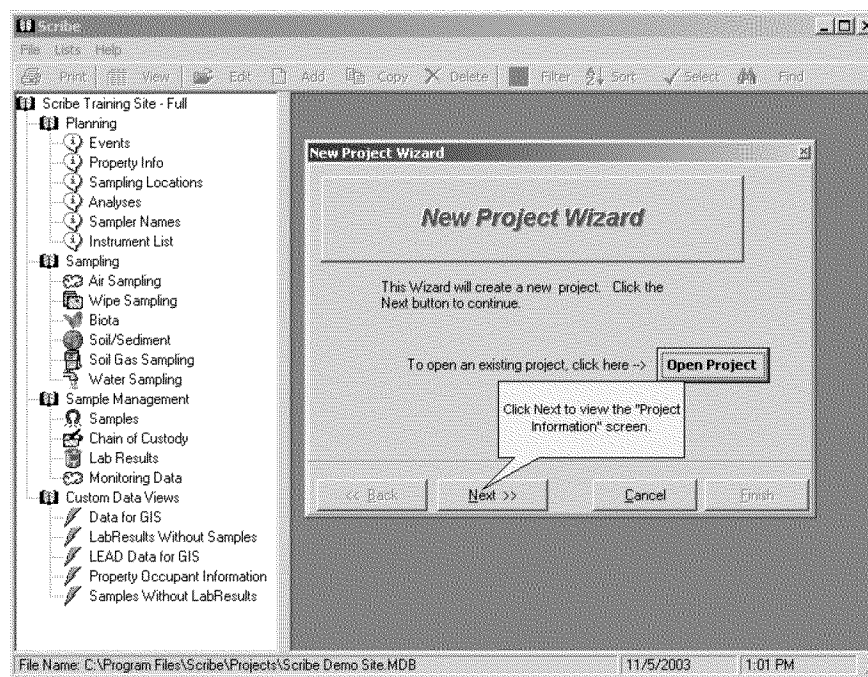

Figure 1 New Project Wizard screen

**Project Information Screen**  
Enter the official EPA Site Name.

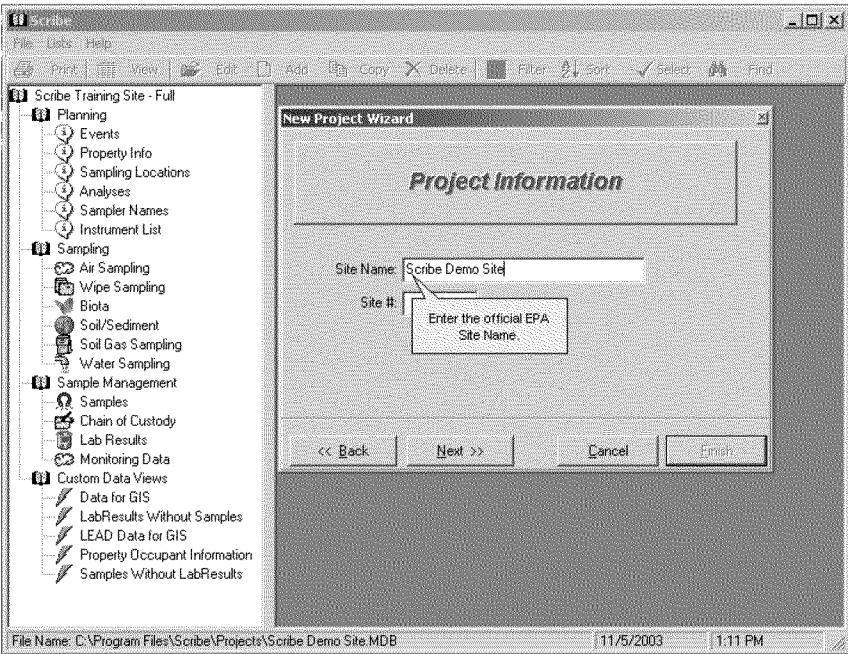

Figure 2 Project Information screen – Site Name

Enter the official EPA Site Charge number

Figure 3 Site Information screen – Site #

Click **Next** to display the “Project File Path” screen.

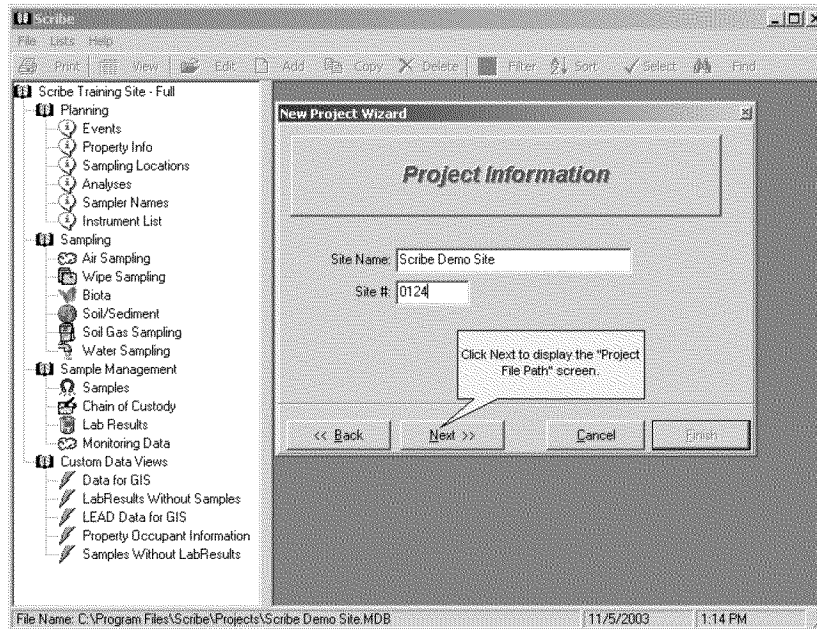

Figure 4 Project Information screen – Next

### Project File Path Screen

The “Project File Path” screen displays a default location and filename for the project database.

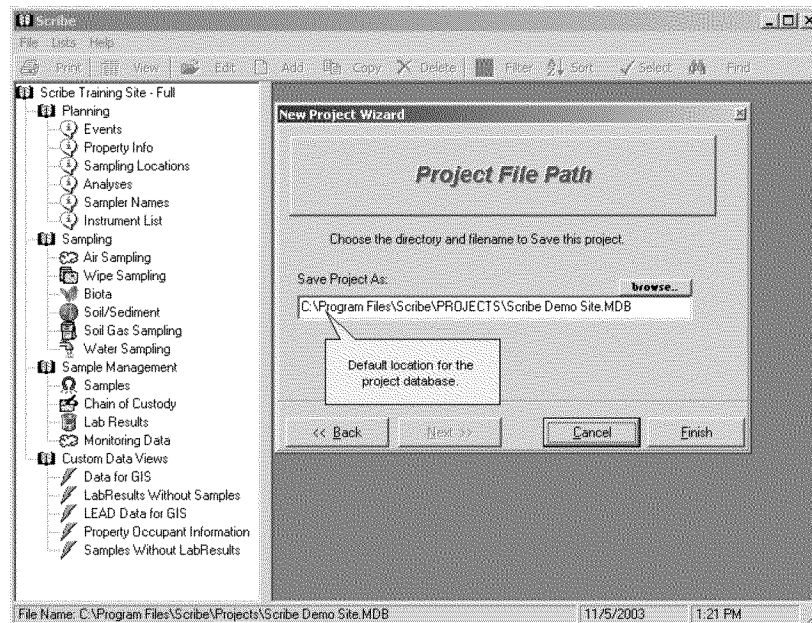

Figure 5 Project File Path screen

Click **Finish** to accept default path and filename to complete creation of the new project.

Figure 6 Project File Path - Finish

### Site Info Screen

The New Project Wizard closes and the “Site Info” screen displays. Completing the information on this screen is not required but recommended.

## PRINT LABELS

All samples shown on the screen are printed. **Filter** selects or deselects items to display for printing. Print specific samples by Clicking **Filter** to display the “Basic Filter.” Click **More** to display the “Advanced Filter”.

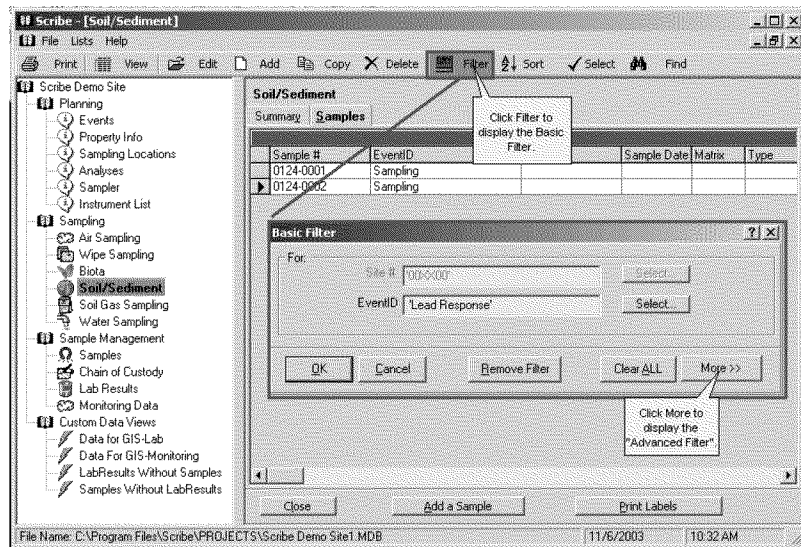

Figure 20 Basic Filter

Click **Select** and “drop down arrows” to select items in each of the “Advanced Filter” fields. Click **OK** to filter samples.

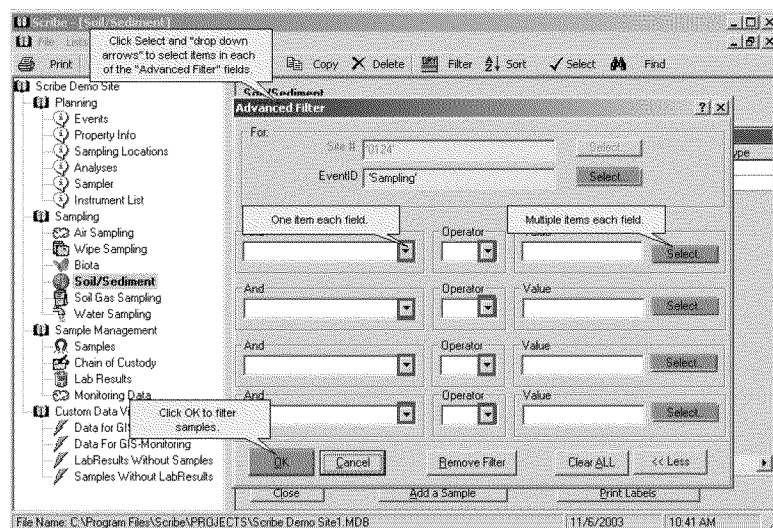

Figure 21 Advanced Filter

Click **Print Labels**.

Figure 22 Print Labels Button

Click **Label Setup**.

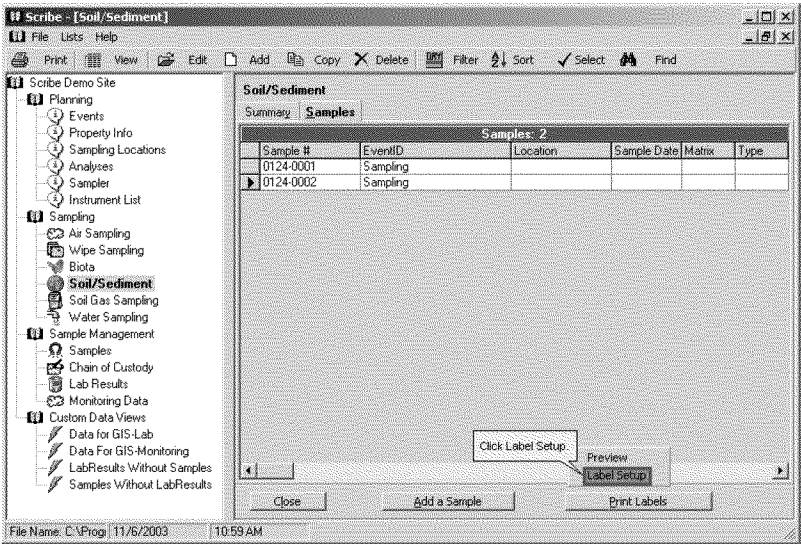

Figure 23 Label Setup Popup

Select the desired Label from the default list and click **Next**.

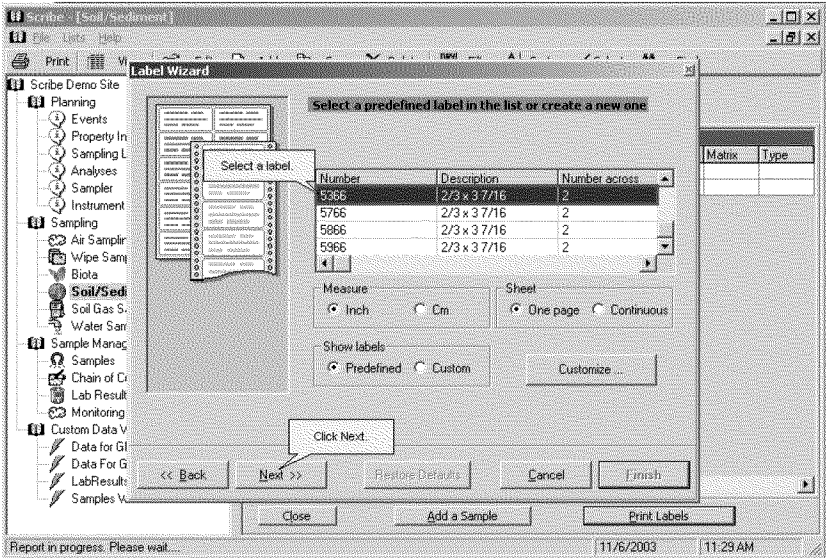

Figure 24 Label Wizard

Add, delete and organize label fields from this screen. Change the design or accept the default, then click **Next**.

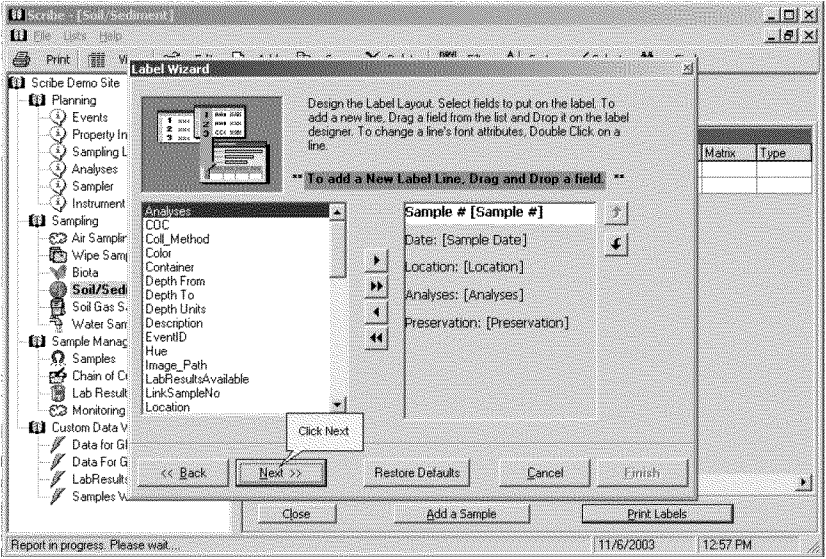

Figure 25 Label Wizard - Add, Delete and Organize Fields

Enter the “Label Number” from which to start printing then click **Finish** to display the “Preview” screen.

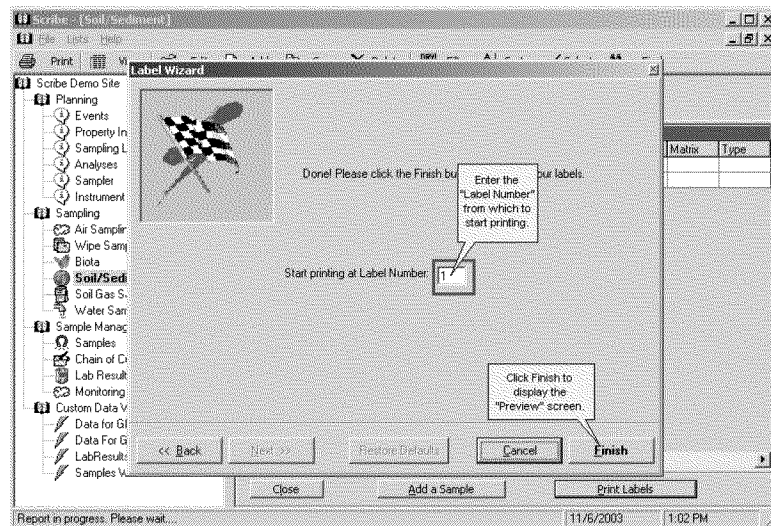

Figure 26 Start Printing at Label Number

The preview screen shows how the label will look when printed. Click **Print All** to print all the labels.

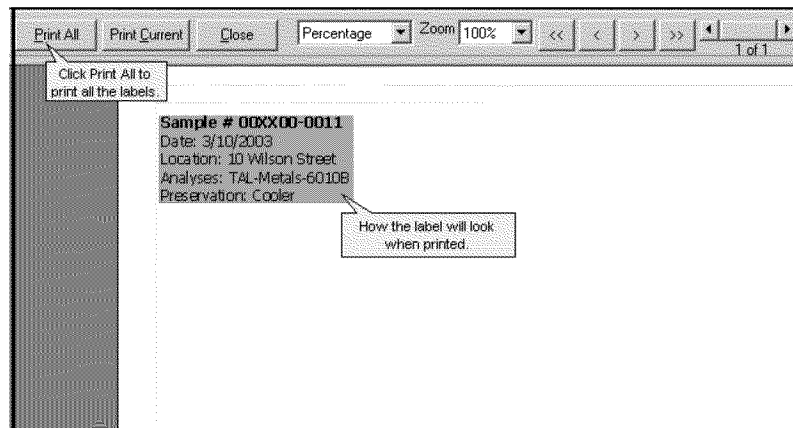

Figure 27 Label Print Preview

## PRINT CHAIN OF CUSTODY

Select “Chain of Custody” in the “Navigation Pane”.

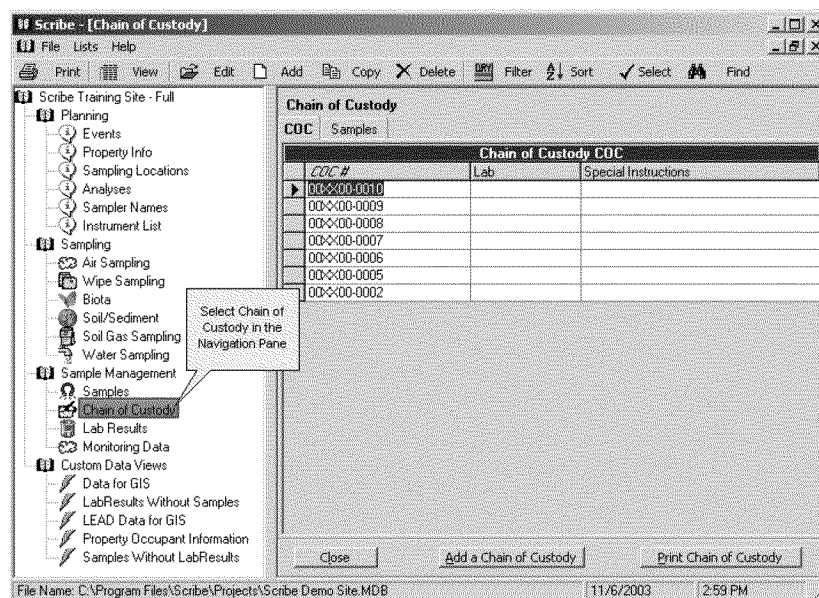

Figure 28 Chain of Custody – Navigation Pane

Click **Add a Chain of Custody**.

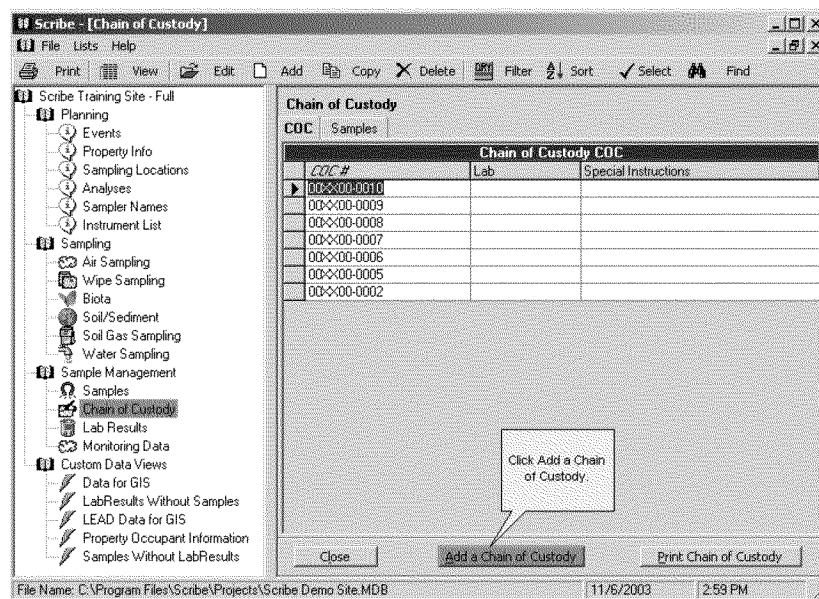

Figure 29 Add a Chain of Custody button

The “COC Details” screen displays. “COC #” is the only required. We recommend you complete the other fields because Lab info will print in the header of the Chain of Custody. I.e. Contact Name, Cooler #, Contact Phone #, Lab, and Lab Phone. Field.

Figure 30 COC Details – Enter COC#

Click **Assign Samples to COC**.

Figure 31 COC Details – Assign Sample to COC

The “Chain of Custody Screen” appears.

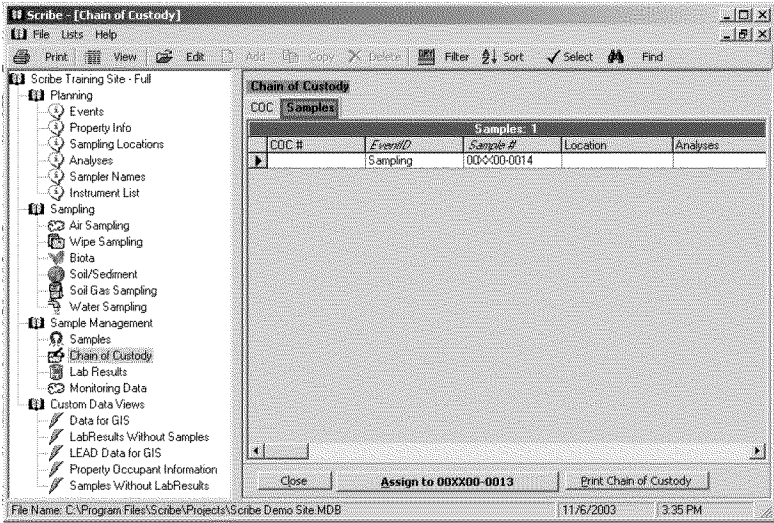

Figure 32 COC Samples Tab

Select Samples to assign to the Chain of Custody. Hi-light multiple samples by holding down the **Shift** key or **Ctrl** key while clicking on the samples.

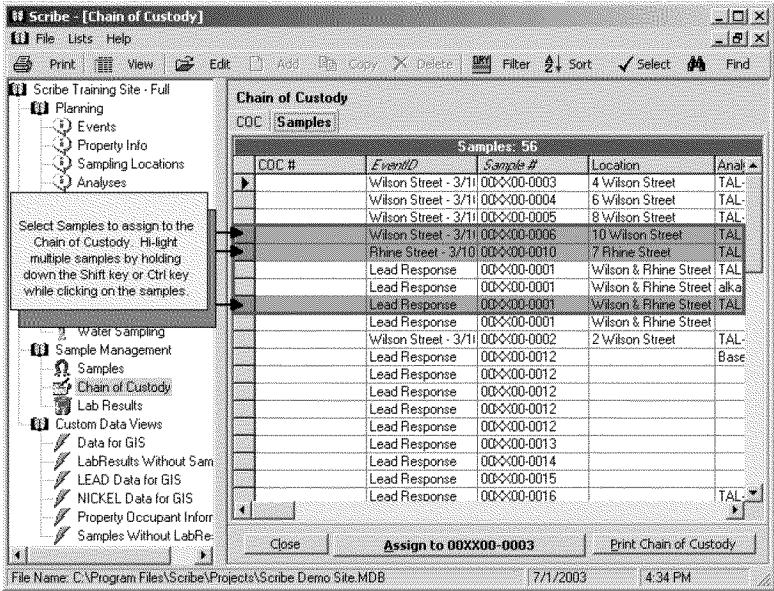

Figure 33 Select Samples to Assign to COC.

Click **Assign to ...** .

Figure 34 Chain of Custody – Assign to... Button

Click **Yes**.

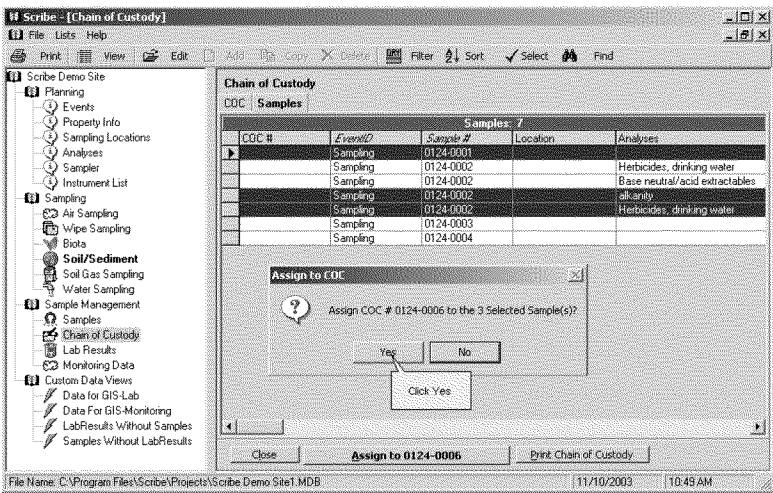

Figure 35 Assign to COC – Yes/No

Click **Print Chain of Custody**.

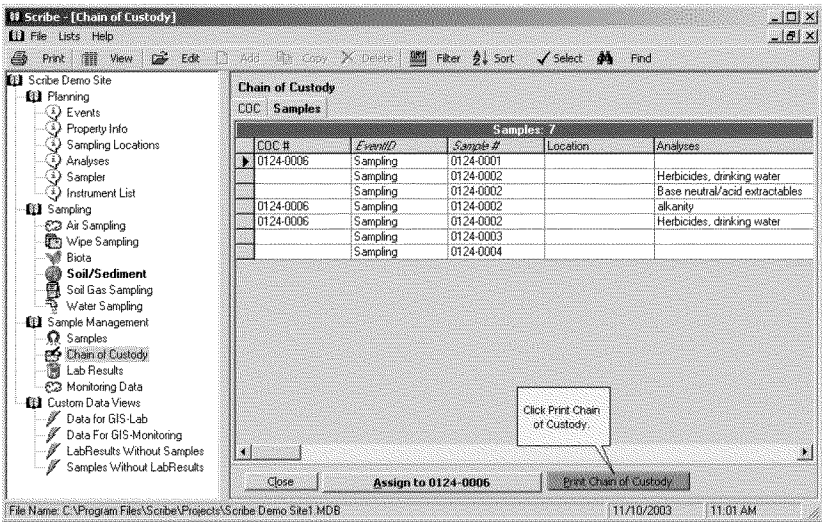

Figure 36 Print Chain of Custody Button

Click **Preview**.

Figure 37 Chain of Custody - Preview

The default “Chain of Custody Record” report displays. Click **Print All** to print the report or **Close** to exit without printing.

The screenshot shows a report titled "CHAIN OF CUSTODY RECORD" for Site # 0124. The report includes a header section with fields for EPA Contract #, Lab #, and a note that header info can be changed in Report Setup. Below the header is a table with columns: Lab #, Sample #, Location, Analyses, Matrix, Collected, Numb. Cont., Container, Preservative, and MS/MSD. The table contains two rows of data. Below the table is a section for Special Instructions and a table for SAMPLES TRANSFERRED FROM CHAIN OF CUSTODY #. The report also includes a footer with fields for Date, Time, and a button for Print Chain of Custody.

Lab #	Sample #	Location	Analyses	Matrix	Collected	Numb. Cont.	Container	Preservative	MS/MSD
0124001			alkalinity			1	16-oz glass		
0124002			Herbicides, drinking water			1	16-oz glass	4 C	Y

Items/Reason	Relinquished by	Date	Received by	Date	Time	Items/Reason	Relinquished by	Date	Received by	Date	Time

Figure 38 Chain of Custody Record Report Print Preview

You can modify the Report Header by Clicking **Report Setup** from the Popup menu.

The screenshot shows the Scribe Demo Site interface. The left sidebar contains a tree view with categories like Planning, Sampling, and Sample Management. The main window displays the "Chain of Custody" report for Site # 0124-0006. The report includes a table with columns: CDC #, EventID, Sample #, Location, and Analyses. The table contains five rows of data. Below the table is a section for "Assign to 0124-0006" with buttons for "Close", "Assign to 0124-0006", and "Print Chain of Custody". A popup menu is open, showing options for "Preview", "RTF File", "HTML File", and "Report Setup".

CDC #	EventID	Sample #	Location	Analyses
0124-0006	Sampling	0124-0001		
	Sampling	0124-0002		Herbicides, drinking water
	Sampling	0124-0002		Base neutral/acid extractables
0124-0006	Sampling	0124-0002		alkalinity
0124-0006	Sampling	0124-0002		Herbicides, drinking water
	Sampling	0124-0003		
	Sampling	0124-0004		

Figure 39 Select Report Setup

The Report Header screen allows you to customize the Chain of Custody Report Header. Click in the field you wish to change and type in the info. If the field has a drop down arrow, click on the drop down arrow then select an item from the drop down menu. The left side of the Header can be used for Contractor or EPA information. The info in Report Header screen will print on all future Chains for this project.

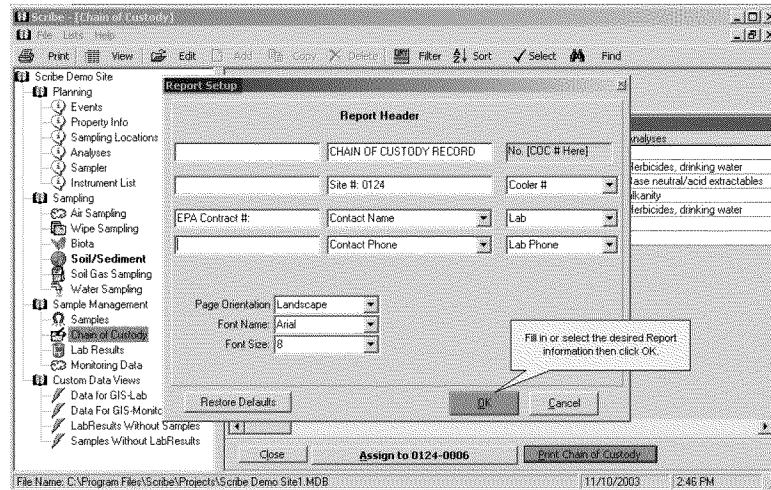

Figure 40 Change Report Header

This completes the Quick Start Guide. For more information on any feature discussed in this guide, refer to Part 2, Field Use Basics, which presents extensive information on the use of this database.
